- 2013 - 2016
General Certificate of Education:
Ordinary Level
St Johns Emerald Hill

ABOUT ME

A highly motivated and detail oriented young man who relishes the idea of a good challenge and is always looking for the next problem to fix. I'm a tech head who's got an affinity for anything to do with space, time and the forbidden art of EDM. I am also quite the talented designer and artist, who has had the honour of personally drawing a portrait for the First Lady, amoungst other things.

Personal hobbies include swimming, reading novels, listening to music and gaming. My short term goal is getting a First Class Honours Degree in Information Technology and my long term ambition in elevating the status of technology in Zimbabwe and Africa as a whole, and maybe world domination in my spare time.
